

Have you ever thought about Freezing?

The Celsius S³ is the only laboratory instrument to evaluate the Freeze and Thaw processes of new drug candidates in single-use containers.

This tool allows generation of consistent samples library useful for evaluating stability, storage conditions and formulations.

Samples frozen in the Celsius S³ system may be stored at different temperatures to investigate the drug substance stability, using final scale-like conditions.

Celsius S³: Scale-down and Stability Studies

Ordering information

Hardware Part Number	Description
FTH-CS00000-0001	Celsius S ³ System with US Computer
FTH-CS00000-0002	Celsius S ³ System with EU Computer
FTH-CS00000-0003	Celsius S ³ System without US Computer
FTH-CS00000-0004	Celsius S ³ System without EU Computer

Single-use containers Part Number	Old Part Number	Description	Qty per box
FZB103484	DB-00030-4	Celsius-Pak 30 ml, Thermowell	10
FZB103492	DB-00030-6	Celsius-Pak 30 ml, Thermowell, C-Flex	10
FZB103494	DB-00100-8	Celsius-Pak 100 ml, Thermowell	10
FZB103498	DB-00100-3	Celsius-Pak 100 ml, Thermowell, C-Flex	10
